## FEEDER REFURBISH | RETOOL | REBUILD SERVICES

### Quick Turnaround Times Keeps Production *Moving*

Fastfeed provides quick and easy feeder refurbishing, retooling, and rebuilding services with standard turnaround times between 2-4 weeks, with expedition available.

Fastfeed has retooled several hundreds feeder systems for weld parts throughout our history. By servicing existing your vibratory bowl feeder, you can **save up to 50% of the cost** of purchasing a new standard blow or push style feeder system for nuts and studs.

We use Hardened Tool Steel to extend tooling life out in the field and will retool **any** manufacturer's feed system. Pick and Place units with Grippers for custom motions and precise loading applications with PLC controls are available. We provide solutions to feed specialty parts other manufacturers won't quote.

#### WHAT YOU CAN EXPECT:

- Cleanup of existing vibratory bowl feeder unit
- Complete retool of the vibratory bowl feeder unit
- Replace, retool, or rework the original track
- Controls & systems programming inspection
- Valves inspection
- Plumbing inspection
- New tubing installed
- We have the ability to change from a single to a dual track

#### FASTFEED REFURBISHMENT PROGRAM

Don't have a unit that can be reworked? Fastfeed has an inventory of used vibratory bowl feeders available that can be reworked to fit your application needs. Spend less on a unit compared to the purchase price of a new unit.

#### FASTFEED TRADE-IN ALLOWANCE PROGRAM

Do you have an old bowl feeder collecting dust in your facility? Fastfeed will take it off of your hands! Fastfeed provides a trade-in allowance for used nut and stud feeders that can be used towards the purchase of a new unit.

#### BRANDS WE REFURBISH

Fastfeed will refurbish, retool, or rebuild vibratory bowl feeder manufactured by:

Dengensha America  
Quality Feeders  
Feeding Concept  
Vibron  
SEKI  
And more!

#### REPLACEMENT PARTS

Feed Unit Head Assemblies  
Spindles & Bushings  
Magnet Assemblies  
Complete Spear Feed Units  
Chute Tracks  
Separators

## VIBRATORY BOWL FEEDER REFURBISH | RETOOL | REBUILD SERVICES

**BEFORE**

**AFTER**

### INDUSTRIES WE SERVE

Automotive  
Sheet Metal Stamping  
Fastener Manufacturing  
Aerospace  
Medical  
All Varieties of Stampings  
Appliance  
Machine Tool  
Component Manufacturing  
Ammunitions

### COMMON APPLICATIONS

Parts Feeding & Orientation  
High Speed/High Volume Part Assembly  
Weld Nut/Weld Stud Feeding & Placement  
Packaging

## THE FASTFEED DIFFERENCE

Comprehensive consultative services

Custom automation system designs

creative solutions based on decades of experience

### CONCEPT TO COMPLETION, WE'VE GOT YOU COVERED.

Fastfeed provides a comprehensive consultative service as well as an on-site review (upon request) to make sure your design is tailored to best suit your facility, process, and specific job requirements.

Fastfeed is proudly made in the USA, with in-house design, engineering & manufacturing capabilities to provide the ultimate customization and design flexibility.

All systems come with perishable tooling drawings, making parts replacement quick & easy, saving you production down-time, money, and headache.

Quick turnaround times & inventory availability using Fastfeed's Refurbish/Retool/Rebuild Services keeps your production moving at a fraction of the cost of purchasing a new vibratory bowl feeder. All major brands supported.

From vibratory bowl feeders, and parts feeding & loading systems, to complete turnkey robotic systems, Fastfeed is your one-stop-shop for your high quality custom automation needs.
